Contracting available: Anytime

Appointments Requirements

Preappointment States – (Pennsylvania and Montana)

Non-Preappointment States – A party may solicit prior to having an effective appointment (applications may be

submitted with contracting paperwork). However, the policy cannot be issued until the appointment is effective with OHIC. Insurance department regulations require us to have producers appointed within a certain period of time after receiving applications – typically 10-15 days.

Continuing Education

General Medicare Certification or Mutual of Omaha Rx Compliance training and Product Specific training with passing score are required to be contracted as Ready to Sell. Producers and their hierarchies must be deemed Ready to Sell before soliciting and submitting any Prescription Drug Plan (PDP) policies. To receive compensation including renewals, all levels in the hierarchy are required to take and provide proof of on-going certification.

Election Periods

Individuals looking to make enrollment requests may do so at the following times:

- Medicare Annual Enrollment Period (AEP)
- Initial Coverage Election Period (ICEP)
- Initial Enrollment Period for Part D (IEP for Part D)
- The Medicare Advantage Open Enrollment Period (MA OEP)
- Special Election Periods (SEP)

Medicare Annual Enrollment Period (AEP)

AEP runs from October 15 through December 7. During the AEP, Medicare-eligible individuals may enroll in or disenroll from a Medicare Advantage (MA) plan or Prescription Drug Plan (PDP). The AEP is also referred to as the “Fall Open Enrollment” season and the “Open Enrollment Period for Medicare Advantage AND Medicare prescription drug coverage.”

Producers may begin marketing for the upcoming benefit year on October 1. No solicitation or submission of an MA or Prescription Drug Plan enrollment may occur prior to October 15.

Initial Coverage Election Period (ICEP)

An ICEP occurs when a consumer first becomes eligible for Medicare. These periods are for all consumers becoming eligible for Medicare, whether it's due to turning 65 or a qualifying disability.

This period begins three months immediately before the individual's first entitlement to both Medicare Part A and Part B and ends on the later of:

- The last day of the month preceding entitlement to both Part A and Part B, or;
- The last day of the individual's Part B initial enrollment period

The initial enrollment period for Part B is the seven (7) month period that begins three months before the month an individual meets the eligibility requirements for Part B, and ends three months after the month of eligibility.

Initial Enrollment Period for Part D (IEP for Part D)

The Initial Enrollment Period for Part D (IEP for Part D) is the period during which an individual is first eligible to enroll in a Part D plan. In general, an individual is eligible to enroll in a Part D plan when he or she is entitled to Part A or is enrolled in Part B, and permanently resides in the service area of a Part D plan. Ultimately, CMS provides a Part D eligibility effective date and maintains it in CMS systems.

Generally, individuals will have an IEP for Part D that is the same period as the Initial Enrollment Period for Medicare Part B. The initial enrollment period for Part B is the seven (7) month period that begins three months before the month an individual meets the eligibility requirements for Part B, and ends three months after the month of eligibility.

Individuals eligible for Medicare prior to age 65 (such as for disability) will have another Initial Enrollment Period for Part D based upon attaining age 65.

Medicare Advantage Open Enrollment Period (MA OEP)

The MA disenrollment period was eliminated in 2019 and replaced with a Medicare Advantage Open Enrollment Period (OEP). Between January 1 and March 31 each year, individuals enrolled in a Medicare Advantage Plan (MA or MAPD) can make a one-time election to:

- Switch from a Medicare Advantage Plan (with or without drug coverage) to another Medicare Advantage Plan (with or without drug coverage).

- Disenroll from a Medicare Advantage Plan and return to Original Medicare. If they choose to do so, they'll be able to join a Medicare Prescription Drug Plan

If individuals are enrolled in a Medicare Advantage Plan during their Initial Enrollment Period, they can change to another Medicare Advantage Plan (with or without drug coverage) or go back to Original Medicare (with or without drug coverage) within the first three months they have Medicare.

During this period, individuals cannot:

- Switch from Original Medicare to a Medicare Advantage Plan
- Join a Medicare Prescription Drug Plan if they're in Original Medicare and previously declined to enroll in such a plan
- Switch from one Medicare Prescription Drug Plan to another if they're in Original Medicare

Any changes made will be effective the first of the month after the plan receives the request.

Special Election Period (SEP)

Special election periods constitute periods outside of the usual IEP, AEP or OEP when an individual may elect a plan or change his or her current plan election. As detailed below, there are various types of SEPs, including SEPs for dual-eligibles, and for individuals whose current plan terminates, who change residency and who meet "exceptional conditions."

Depending on the nature of the particular special election period, an individual may:

- Discontinue an enrollment in an MA plan and enroll in Original Medicare
- Switch from Original Medicare to an MA plan
- Switch from one MA plan to another MA plan

General Enrollment Guidelines

Scope of Appointment

The Scope of Appointment (SOA) form is an agreement between a Medicare beneficiary and a producer. It's used to document all in-person appointments with the beneficiary to ensure that only products agreed upon are discussed. The form is required when meeting in-person with a potential, new, or existing beneficiary, or someone seeking information on behalf of a beneficiary, and is used to carry out marketing or sales activities. The form should be completed by the beneficiary and returned prior to the appointment. If this isn't possible, the agent may get the beneficiary to sign the form at the beginning of the appointment. In this case, the form requires the agent to indicate why the form wasn't executed prior to the meeting.

You can discuss various plan options; distribute plan materials or other educational materials; distribute or collect enrollment forms.

Medicare requires that you retain a copy of the Scope of Appointment form for 10 years and make it available to Medicare or the plan upon request.

A copy of the SOA can be downloaded on Sales Professional Access – Forms and Materials.

Paper Enrollment Application Submission Timeline

A signed Prescription Drug Plan (PDP) enrollment application must be submitted within 48 hours of the enrollment form sign date.

See below "Enrollment Methods" for details regarding the preferred method for submission of paper enrollment forms.

Trumping Rule

A Medicare beneficiary can't be enrolled in more than one PDP plan at a time.

If CMS receives enrollment requests from separate carriers for the same person in the same valid election period, the last application or enrollment request received will take effect. The carrier and writing producer that submitted the last enrollment request will receive credit for the enrollment. If the enrollment requests have the same application-received date, the carrier that submitted the first enrollment request will get credit.

Compensation

Accessing Comp Reports

Prescription Drug Plans

Comp reports can be found in the same location as all current comp reports under the Reports tab on Sales Professional Access.

Calculating

Commission amounts are based on the schedule assigned for the current enrollment year.

For Prescription Drug Plan (PDP), individuals with a level 6 or above will only receive the level 5 Commission Amount for personal production.

Commissions for OHIC are calculated monthly after data is made available from CMS of valid enrollees and their corresponding activities for OHIC sold business. A statement and, if applicable, corresponding payment will be available monthly based on the previous' month's activities.

Compensation Overview

Types of Compensation

According to the CMS guidelines, we have identified three calculations for compensation:

- 1. Initial Enrollment (Full Payment):** First time on PDP with no prior plan or with an "unlike plan type" enrollment change.
- 2. Like Plan Type Change (Pro-rated Payment):** Change from a PDP to another PDP. This may be done during the initial enrollment year or in a renewal enrollment period.
- 3. Renewal Enrollment (Pro-rated Payment):** Continued enrollment in the same plan or make a like plan type enrollment in a subsequent plan year.

All determinations are based on monthly reports received from CMS.

Producer and Up-Line Compensation

Compensation, including commission and administrative fees, as defined in your Medicare Prescription Drug Plan Fee Table in your Compensation Schedule, will be paid on or about the 20th of each month and is based on notification from CMS that the plan is still in force.

Initial Enrollment: For PDP enrollments, the full amount will be paid as a lump sum payment in the effective month of the policy.

Like Plan Type Change: For PDP enrollments, upon CMS notification of a Like Plan Type Change, a prorated amount equivalent to the balance of the plan year commission and/or administrative fee will be paid out as a lump sum payment. If the Like Plan Type Change occurs 1) in the Initial Enrollment year, the amount is based on the Initial Enrollment commission and/or administrative fees or 2) after the Initial Enrollment year, the amount is based on the renewal amount shown in your Compensation Schedule.

Renewal Enrollment: For PDP enrollments, the prorated annual amount, equivalent to the balance of the plan year commission and/or administrative fee, will be paid out as a lump sum payment in the effective month of the plan.

Lifetime renewals are paid to the producer and anyone in the hierarchy, as long as each has appropriate certifications on-file with OHIC, based on the as-of date determined by CMS. Future renewal compensation will be paid based on your assigned Compensation Schedule in effect for the plan year of the renewed enrollment. The renewal compensation will be reflective of the fair market value (FMV) changes that are published by CMS each plan year.

If at any time, the writing producer does not recertify, no one in the hierarchy will be paid any future commission or administrative fees.

OHIC does not allow Agent of Record (AOR) changes on existing enrollees.

Appropriate licenses and appointments for the state in which the beneficiary resides are required to receive compensation payments for that beneficiary.

Chargebacks

- When Enrollee disenrolls within the first three months of enrollment (rapid disenrollment), the full commission and/or administrative fees paid are charged back.
- If the disenrollment is not a rapid disenrollment, for any months in which the Enrollee is not enrolled, the amount of the commission and/or administrative fees being charged back are prorated
 - o Initial Enrollment chargeback is equal to the number of months the enrollee is not enrolled.
 - o For Like Plan Type Changes or Renewal Enrollments, the chargeback is equal to any monthly amount that had been paid after the effective date of the disenrollment per notification from CMS of the disenrollment. Also, no additional compensation will be paid for that plan.
 - o For a Death Cancel, compensation is not charged back.

Paying

OHIC prefers to pay via EFT. To do this your account must have a valid EFT routing and account number in which to deposit your compensation. The minimum balance to receive your pay via EFT is \$25.00. If you do not have a current EFT set up by January 2022 and choose to remain on check, you will be paid out annually the following January to the address on record.

Every contracted producer must have either AHIP certification or complete the the Mutual of Omaha Rx Compliance training and have passed the company's specific product training prior to selling PDP products. In addition, the company must have appropriate state license(s) on file to process the appointments with OHIC. For complete details, see the Ready to Sell section of this guide

Notes:

- To be eligible for their portion of compensation on an application, each person/entity must have applicable AHIP certification or Mutual of Omaha RX Compliance training, have passed specific product training, and be licensed and appointed, in the state in which a beneficiary resides, as of the application sign date. Anyone who does not have the appropriate requirements on file in the home office, as of this date, forfeits their eligibility for compensation
- Compensation will continue to be paid as long as the Enrollee remains continuously enrolled and annual recertification of AHIP or Mutual of Omaha Rx Compliance training and product training is completed and on file with our companies
- Renewal compensation will not be paid to anyone in the hierarchy who does not send in proof of AHIP recertification or who has not taken and passed the Mutual of Omaha Rx Compliance training, and who has not taken and passed product training each year. Once compensation is forfeited for an enrollee's plan, no future compensation will be payable for that plan
- Future renewal compensation will be paid based on your assigned Compensation Schedule in effect for the plan year of the renewed enrollment. The renewal compensation will be reflective of the fair market value (FMV) changes that are published by CMS each plan year.

Compliance & Marketing

Staying Compliant

As a producer representing Mutual of Omaha Rx Prescription Drug Plans, you must follow all Mutual of Omaha policies as well as the regulations and guidelines set forth by the Centers for Medicare & Medicaid Services (CMS). You're responsible for knowing the rules and complying with them as they pertain to your daily marketing activities.

Potential consequences of engaging in inappropriate or prohibited marketing activities include disciplinary actions, termination and forfeiture of compensation.

Medicare Communication and Marketing Guide (MCMG)

Always refer to, and follow, the complete and current CMS Medicare Communication and Marketing Guidelines (MCMG), which you can find at:
www.cms.gov/medicare/health-plans/managedcaremarketing/finalpartcmarketingguidelines.html

Marketing/Sales Events (50.2 - MCMG)

Marketing/Sales Events are designed to steer or attempt to steer potential enrollees, or the retention of current enrollees, toward a Plan or limited set of Plans. Marketing/sales events:

- May discuss Plan-specific information; distribute health plan brochures and enrollment materials; and conduct enrollments
- Report all marketing/sales events. Mutual of Omaha has a request form which must be completed prior to conducting a marketing/sales event
- May not cross sell non-health related products (i.e. life and annuities)

- Only sales presentations designed by Mutual of Omaha may be used at these events

Educational Events (50.1- MCMG)

Educational events are designed to inform beneficiaries about Prescription Drug or other Medicare programs.

Educational events:

- Must be advertised as educational and provide objective information about Medicare and/or PDP
- Hosted in a public venue
- May answer beneficiary-initiated questions
- May set up a marketing appointment and distribute business cards and contact information for beneficiaries to initiate contact (this includes completing and collecting a Scope of Appointment form)
- Must not include marketing or sales activities or distribution of marketing materials or enrollment forms

Personal/Individual Marketing Appointments (50.3 - MCMG)

Scope of Appointment (SOA) parameters (and documentation) are required for all one-on-one appointments, regardless of venue (e.g., home, telephone). During these appointments, discussions may only concern previously agreed upon plan products documented in the SOA, and may only market health-related products, and not, for example, annuities or life insurance. Individuals may not solicit/accept enrollment applications for a January 1 effective date until October 15 of the preceding calendar year, unless the beneficiary is entitled under another enrollment period.

Nominal Gifts (40.4 - MCMG)

Nominal gifts may be offered to beneficiaries for marketing purposes as long as gifts are of nominal value (\$15 or less, \$75 aggregate, per person, per year) and provided regardless of enrollment, and without discrimination.

- If a nominal gift is one large gift (i.e., concert, raffle, drawing), the total fair market value must not exceed the nominal per person value based on attendance (\$15 for

person). For planning purposes, anticipated attendance may be used, but must be based on actual venue size, response rate, and/or advertisement circulation.

- Cannot be in the form of cash or other monetary rebates, even if their worth is \$15 or less; cash gifts include charitable contributions made on behalf of potential enrollees, and gift certificates/gift cards that can be readily converted to cash, regardless of dollar amount.
