## e-App enhancement now available

## We heard you loud and clear.

In response to feedback we've received, we've enhanced the iPipeline iGO e-App<sup>1</sup> to allow the Proposed Insured, Owner and Payers to be different on Term, SMART UL and Advantage Plus (non-med<sup>2</sup> and medical) e-Apps. For juvenile applications, however, the Owner will still need to be a parent or legal guardian, but the Payer can be someone else, such as a grandparent.

## Filling out the e-App: What you need to know

Prior to the update, the *Payer* field on e-App would default to the Proposed Insured (or Owner if a juvenile case). Now, you and your clients have options: you can select *Proposed Insured*, *Owner* or *Other* as the Payer. If **Other** is selected, you will need to complete the *Contingent Owner/Other Payer Identification form* which will automatically load into the e-App once the selection is made.

We've also updated the Touch to Sign signature process for iPad. Don't worry if one of the signing parties is not present when it comes time to sign the e-App. You can easily switch to ClickWrap all within the same signature screens. One more way Foresters is making it easier to submit business!
